Why Urban Produce?

ORGANIC LOCALLY GROWN SUSTAINABLE FAMILY OPERATED

Urban Produce is a High Density Vertical Growing Company, whose mission is to bring fresh, organic, locally grown produce to urban cities nationwide while also providing growth and employment opportunities to local communities. This patented technology takes the best of hydroponics and increases the yield by stacking produce vertically, in a closed automated environment, using 93% less water producing approximately 16 acres of produce on 1/8th of an acre.
